

1. Cell = the smallest living unit of an organism.
2. Nucleus, Mitochondria, Golgi, Smooth E.R., Ribosomes
3. skeletal, digestive, respir., nervous, urinary, reproduct, muscle, Lymphatic, circulatory
4. DNA is the RECIPE  for PROTEINS.
5. Proteins control everything in our bodies.
6. Bio = life ology = study of
7. DNA is inside nucleus.
8. Electron, Neutron, Proton.
nucleus of atom
9. Diffusion = molecules move from high → low conc.
10. Enzymes are Proteins !!

10. enzyme = catalyst that speeds up chemical reactions.

or
breaks molec. apart
& puts them together.

11.  = LIFE = ENERGY
